GenAI-Powered Voice & Chat Platform

Flexible. Scalable. Cloud or On-Prem Your Choice

A man with a beard and a woman with glasses are looking down at a device, possibly a tablet or smartphone. The man is on the left, leaning in, and the woman is on the right, looking on. They are in a dimly lit room with warm, out-of-focus lights in the background.

Product Overview

Our GenAI-Powered Voice & Chat Platform delivers intelligent, natural, and accurate conversations across all your communication channels. It enables customers to speak or chat with an AI system that understands intent, fetches real-time data, and responds instantly — improving service quality and reducing operational workload.

Whether you need voice automation, chat automation, workflow assistance, or internal AI support, the platform adapts quickly to your unique business processes.

Key Highlights

1

Dynamic AI Instructions are generated using Jinja2 template engine

2

Template-based prompts using Jinja2 engine

3

Multi-language support

4

Fast setup and easy expansion of new use cases

5

Real-time data integration through secure APIs

Deployment Options

Cloud Deployment

Ideal for businesses seeking fast implementation and lower maintenance.

On-Prem Installation

Perfect for businesses requiring full internal control and strict governance.

Core Technologies

Built with modern, secure technologies:

- Python
- Uvicorn
- Angular
- FastAPI
- OAuth2 + HTTPS
- Enterprise-grade LLMs
- Task Configuration Engine

Benefits

- Reduce Workload
- Improve Response Quality
- Operational Streamlining
- Lower Costs
- Flexible Control
- No Vendor Lock-In
